## Summary

Full Stack Developer with 1.5 years of experience building scalable applications using React, Node.js, Express, NestJS, PostgreSQL, and Prisma. Worked on healthcare, banking, and examination systems, contributing to back-end APIs, dashboards, integrations, and application architecture. Experienced in performance optimization, AWS EC2 deployment, and delivering production-ready features end-to-end.

## Experience

### Software Engineer

Mar 2025 – Present

TechStalwarts Software Development LLP, Vikhroli

- **Confidential Banking Application**

- Worked on geolocation features, including geo tagging, notification systems, and file upload validations for a confidential banking platform.
- Integrated services using RabbitMQ, S3, SQS, SNS, and Google Maps API to support reliable workflows and notifications.
- Contributed to Probe 42-related modules and backend reliability improvements.

- **Helpie — Event Management Platform**

- Worked on the NestJS backend for Helpie, a platform used for event management with role-based workflows for admins, companies, and users.
- Implemented features for creating interactions and managing notes with text, image, and video attachments.
- Contributed to admin dashboard capabilities and company-facing management features for organizing event-related activities.
- Supported search and content organization workflows for event-based collaboration.

### Software Engineer

Jul 2025 – Feb 2026

Yogineers Technologies Pvt. Ltd., Thane

- **Ophthalmology Hospital Management System**

- Worked from requirement gathering to deployment on a full-scale hybrid (online + LAN) ophthalmology platform using React, Node.js/Express, and PostgreSQL; implemented patient registration, appointment booking, priority-based queueing, OPD, and doctor workflows.
- Built OT/stock management, staff attendance, reminders, and multi-role dashboards including TPA dashboard for surgery, claims, and payments; designed secure ABDM and ICD-11 integrations with extendable APIs.

- **Government Shorthand Examination Platform**

- Developed institute onboarding, candidate registration, authentication, and exam enrollment workflows.
- Implemented configurable mock-test packages (30–180 days) with integrated payment processing and automated credential generation/delivery.

- **Examination Management System**

- Built hall-ticket generation, exam center allocation, and admin dashboards; optimized generation speed by 70% using AcroForm-based templates instead of dynamic PDFs.
- Implemented real-time monitoring and reporting views to track exam-day status.

### Full Stack Developer Intern

Apr 2025 – Jun 2025

Yogineers Technologies Pvt. Ltd., Thane

- Built RESTful APIs using Node.js/Express, and developed full-stack React applications with PostgreSQL, Prisma, and Tailwind CSS for company portfolio and photo editing platforms.
- Implemented admin dashboards with features for blog management, project uploads, order tracking, and engagement analytics; deployed applications on AWS EC2 with Nginx and PM2.
- Refactored existing codebases to improve readability, error handling, and maintainability.

## Skills

**Frontend:** React.js, React Native, Next.js, HTML, CSS, Tailwind, JavaScript

**Backend:** Node.js, Express.js, NestJS, RabbitMQ, SNS, SQS

**Databases:** PostgreSQL, Prisma, MongoDB, MySQL

**Tools & DevOps:** Git, GitHub, Postman, AWS EC2, Nginx, PM2, PDF/AcroForms

**Languages:** JavaScript, Java

## Projects

### Etato Foods — Food Commerce & Subscription Platform

[etatofoods.in](#) →

- Built **Etato Foods**, a production e-commerce platform for ordering fresh, protein-rich salad bowls online in Pune, from planning to deployment.
- Developed a complete **admin dashboard** for subscriptions, plans, menu items, payments, and blog content, and integrated **Razorpay** for online payments.
- Built RESTful APIs with **Express.js**, **PostgreSQL**, and **Prisma**, including subscription logic, menu image uploads, and content management, and deployed the platform on a **private VPS**.

### StayEase — Accommodation Booking Platform

[View Live](#) →

- Full-stack accommodation booking platform for listing and searching stays with authentication and CRUD for listings.
- Built reviews and ratings; implemented using Node.js, Express, EJS and MongoDB with secure authentication.

## Education

### Masters of Science (M.Sc), Cyber Security

2024 – 2026

University of Mumbai, Santacruz (E)

CGPA: 8.5

### Bachelor of Science (B.Sc), Computer Science

2021 – 2024

Bhavans College, Mumbai, Maharashtra

CGPA: 9.3

### Senior Secondary (XII), Science

2019 – 2021

Bhavans College, Mumbai, Maharashtra

Percentage: 83.49%

## Certifications

- **Full stack web development (Delta batch)** [View Certificate](#) →  
Instructor: Shradha Khapra
- **The Complete ReactJs Course (Basics to Advanced)** [View Certificate](#) →  
Infosys Springboard
- **React Native Unveiled: From Basics to Mobile Mastery** [View Certificate](#) →  
Infosys Springboard

## Achievements

- Finalist, **Taqneeq Hackathon**, NMIMS (Feb 2024).
- Led team and selected for **Odoo x SPIT Hackathon 2025 @SPIT** (Nov 2025).
